Education

Lebanese International University   2021-2024
Bachelor of Science in Computer Science (Note: 3.30 / 4.00)   *Beirut*

Summary

Passionate Full Stack Developer with a strong foundation in computer science, specializing in both front-end and back-end technologies. With a Bachelor's degree in Computer Science from the Lebanese International University and a GPA of 3.30, I have honed my skills in various programming languages including C#, JavaScript, and PHP, and technologies like React.js, Next.js, Laravel, and Node.js. My experience spans developing intuitive and user-friendly interfaces, implementing robust backend functionalities, and ensuring high performance and security in web applications.

Projects

Al Rasoul Al Aazam Hospital Website
Full Stack Developer
- Developed a hospital website with features for session scheduling, reporting, payment management, and appointment handling.
- Automated scheduling processes to enhance efficiency and resource allocation.
- Designed an intuitive user interface for both patients and administrative staff.
- Improved data management with optimized MySQL queries, enhancing overall performance.

Technologies Used: Next.js, Node.js, Express.js, Sequelize, MySQL, Tailwind CSS, js-cookie.

Clinic Management System
Full Stack Developer
- Created a clinic system with APIs for patient management, appointment scheduling, and authentication.
- Enhanced UX with animations, responsive design, and integrated SEO strategies for better visibility.
- Utilized nodemailer for automated email notifications, improving patient communication.
- Implemented multi-language support, catering to a diverse user base.

Technologies Used: Next.js, Node.js, Express, Sequelize, MySQL, Tailwind CSS, Swiper.js, Framer Motion.

Coffee Shop Website
Full Stack Developer
- Built a coffee shop site with dynamic menu displays, secure payments, and event promotion features.
- Implemented a user-friendly interface, ensuring ease of navigation across devices.
- Integrated responsive design to provide a seamless experience on mobile and desktop.
- Applied SEO best practices, increasing online visibility and customer engagement. **Technologies Used:** Next.js, Node.js.

Online Game Cards Shop
Full Stack Developer

- Developed a multi-language shop with secure authentication, region-based features, and a dynamic cart system.
- Implemented real-time notifications for actions like adding items to the cart and successful logins.
- Customized user experience based on location, enhancing relevance and engagement.
- Ensured a responsive design using Tailwind CSS, providing a consistent experience across devices.

Technologies Used: Node.js, Next.js, Telegram API, i18n, Tailwind CSS.
